# Rating Lowered To 'D (sf)' On Bancaja 10's Class B Spanish RMBS Notes Due To Interest Deferral Breach

27-Feb-2018 05:00 EST

[View Analyst Contact Information](#)

## OVERVIEW

Due to the increase in the level of cumulative defaults since the November 2017 interest payment date, Bancaja 10's class B notes breached their interest deferral trigger on the Feb. 22, 2018 payment date. Consequently, the class B notes' interest is unpaid.

We have therefore lowered to 'D (sf)' from 'CC (sf)' our rating on the class B notes.

Bancaja 10 is a Spanish RMBS transaction that closed in January 2007 and securitizes residential mortgage loans. Caja de Ahorros de Valencia, Castellón y Alicante (Bancaja; now Bankia) originated the pools, which are mainly located in the Valencia region.

MADRID (S&P Global Ratings) Feb. 27, 2018--S&P Global Ratings today lowered to 'D (sf)' from 'CC (sf)' its credit rating on Bancaja 10, Fondo de Titulización de Activos' class B notes.

All the other classes of notes are unaffected by today's rating action.

The level of cumulative defaults over the original portfolio balance increased to 10.93% on the Feb. 22, 2018 interest payment date (IPD) from 10.78% at the November IPD (see "Various Rating Actions Taken In Spanish RMBS Transaction Bancaja 10 Following Review (/en\_US/web/guest/article/-/view/sourceId/10377762)," published on Jan. 17, 2018).

Under the transaction documents, the class B notes' interest deferral trigger is based on the level of cumulative defaults over the original securitized balance. Due to the increase in the level of defaults in the last IPD, the class B notes breached their 10.90% interest deferral trigger on the February 2018 IPD. Consequently, the class B notes' interest is unpaid.

Our ratings in Bancaja 10's address timely interest and ultimate principal payments (see "New Issue: Bancaja 10, Fondo de Titulización de Activos (/en\_US/web/guest/article/-/view/sourceId/4347238)," published on July 30, 2007). We expect the interest shortfalls to last for a period of more than 12 months. Therefore, in line with our temporary interest shortfall criteria and our timeliness of payments criteria, we have lowered to 'D (sf)' from 'CC (sf)' our rating on the class B notes (see "Structured Finance Temporary Interest Shortfall Methodology (/en\_US/web/guest/article/-/view/sourceId/9404717)," published on Dec. 15, 2015, and "Timeliness Of Payments: Grace Periods, Guarantees, And Use Of 'D' And 'SD' Ratings (/en\_US/web/guest/article/-/view/sourceId/8097062)," published on Oct. 24, 2013).

Bancaja 10 is a Spanish residential mortgage-backed securities (RMBS) transaction that closed in January 2007 and securitizes residential mortgage loans. Caja de Ahorros de Valencia, Castellón y Alicante (Bancaja; now Bankia S.A.) originated the pools, which are mainly located in the Valencia region.
