Director General

CORRECTION: FITCH TAKES RATING ACTIONS ON MBS BANCAJA SERIES

Fitch Ratings-London-03 March 2014: This announcement corrects the version published on 28 February which incorrectly stated the rating actions taken on the class C and D notes in MBS Bancaja 1.

Fitch Ratings has affirmed 17 and upgraded two tranches of six MBS Bancaja, FTA transactions, a series of Spanish prime RMBS comprising loans originated and serviced by Bankia, S.A. (BBB-/Negative/F3). Four tranches have been placed on Rating Watch Negative (RWN), and the Outlooks on seven tranches have been revised to Stable from Negative.

A full list of rating actions is at the end of this commentary.

KEY RATING DRIVERS

Improved Asset Performance

A combination of sufficient credit enhancement levels and improving asset performance has contributed to the upgrades of the class C and D notes in MBS Bancaja 2, the revision of the Outlooks on seven tranches to Stable from Negative, and improved Recovery Estimates for the uncollateralized notes in MBS Bancaja 2, 3 and 4. The improved asset performance is reflected in the reduced pace of new arrears. Fitch estimates that on average the one-month plus arrears decreased by over two percentage points over the past 12 months due to a more stable macroeconomic environment in Spain.

Provisioning Mechanism Continues to Provide Protection

While the annualized constant default rate has increased by two percentage points, on average across all transactions, the transactions' structures allow for the full provisioning of defaulted loans for loans in arrears, which are defined as loans in arrears by more than 18 months. At present, gross excess spread, averaging 1.2% per annum of the respective outstanding portfolios, remains adequate to fully provision for defaulted loans and ensure that the reserve funds remain fully funded in MBS Bancaja 7 and 8. Meanwhile, gross excess spread (0.46%) and recoveries on defaulted loans in the more seasoned transactions (MBS Bancaja 1, 2, 3 and 4) have been insufficient to fully cover period defaults and consequently there have been reserve fund draws. The reserve funds levels were 93%, 89%, 84% and 41% in MBS Bancaja 1, 2, 3 and 4 respectively. Fitch expects further draws on the reserve funds due to a combination of the migration of the late stage arrears into the defaults and low recoveries caused by the overhang in the Spanish residential property market.

Payment Interruption Risk

The classes A2 and B notes in MBS Bancaja 3 and A2 and A3 notes in MBS Bancaja 4 have been placed on RWN due to exposure to payment interruption, which would arise upon the default of the servicer. In its analysis, the agency assessed the liquidity available in the transactions to fully cover senior fees, net swap payments and note interest in case the servicer were to default. As the transactions are presently drawing on their reserves and are expected to continue doing so, the cash reserves cannot be relied upon to meet these liquidity needs. Therefore, Fitch believes that the transactions are not adequately equipped to mitigate a disruption to collections. The swap payments by the issuer to the swap counterparty could be deferred for one interest payment date in both transactions. For this reason, if the payment interruption risk is not properly mitigated, we will apply a rating cap of 'Asf'. Fitch expects to resolve the RWN in the next six months.

Account Bank Exposure in MBS Bancaja 7 and 8

In accordance with Fitch's counterparty criteria, the ratings of both MBS Bancaja 7 and 8 are capped at 'A+sf', as the account banks in the two transactions are provided by Banco Santander, S.A. ('BBB+/'Stable/'F2'). The criteria specify that direct support counterparties such as account banks with ratings of 'BBB+/'F2' can support note ratings only up to 'A+sf'.

RATING SENSITIVITIES

Deterioration in asset performance may result from economic factors, in particular the increasing effects of unemployment. An increase in new defaults and associated pressure on excess spread levels and reserve funds beyond Fitch's expectations could result in negative rating actions.

The rating actions are as follows:

MBS Bancaja 1, FTA

Class A (ES0312343017) affirmed at 'AA-sf'; Outlook Stable

Class B (ES0312343025) affirmed at 'AA-sf'; Outlook Stable

Class C (ES0312343033) affirmed to 'AA-sf'; Outlook Stable

Class D (ES0312343033) affirmed to 'A-sf'; Outlook revised to Stable from Negative

MBS Bancaja 2, FTA

Class A (ES0312343017) affirmed at 'AA-sf'; Outlook Stable

Class B (ES0312343025) affirmed at 'AA-sf'; Outlook Stable

Class C (ES0312343033) upgraded to 'AA-sf'; Outlook revised to Stable from Negative

Class D (ES0312343033) upgraded to 'A-sf'; Outlook revised to Stable from Negative

Class E (ES0312343033) affirmed at 'BB+sf'; Outlook Negative

Class F (ES0312343033) affirmed at 'CCsf'; Recovery estimate 90%

MBS Bancaja 3, FTA

Class A2 (ES0312343025) 'AA-sf'; Placed on RWN

Class B (ES0312343033) 'AA-sf'; Placed on RWN

Class C (ES0312343033) affirmed at 'Asf'; Outlook revised to Stable from Negative

Class D (ES0312343033) affirmed at 'BB+sf'; Outlook Negative

Class E (ES0312343033) affirmed at 'CCsf'; Recovery estimate 85%

MBS Bancaja 4, FTA

Class A2 (ES0312343025) 'A+sf'; Placed on RWN

Class A3 (ES0312343033) 'A+sf'; Placed on RWN

Class B (ES0312343033) affirmed at 'BBB+sf'; Outlook revised to Stable from Negative

Class C (ES0312343033) affirmed at 'BBB-sf'; Outlook revised to Stable from Negative

Class D (ES0312343033) affirmed at 'BsF'; Outlook Negative

Class E (ES0312343033) affirmed at 'CCsf'; Recovery estimate 40%

MBS Bancaja 7, FTA

Class A (ES0312344015) affirmed at 'A+sf'; Outlook revised to Stable from Negative

MBS Bancaja 8, FTA

Class A (ES0312285002) affirmed at 'A+sf'; Outlook revised to Stable from Negative
